Dear

In only one minute, I can show you how Contemporary Color Graphics can measurably improve the impact of your printed sales literature without straining your checkbook.

First, you'll get your own Account Representative to guide your project through every step of production. Our staff must meet or excel tough quality control standards to ensure each order is done to perfection.

Second, our expanded facilities use top-of-the-line equipment that can handle practically any job. From annual reports to full color catalogs, brochures, and corporate image pieces...you'll save time and money by having all of them produced under one roof. Our innovative creative team can even design your Web Site!

Third, you'll never have to worry about missing a deadline again. Our efficient turnaround time lets you set a schedule that is right for you. When we say we'll have your order finished on time, we mean it.

Fourth, you'll find our rates a pleasant surprise. Clients appreciate our honest, fair pricing and account representative who work with them...one reason so many of our customer have been with us from the start.

With nearly 10 years of successful service to the corporate community behind us, I think you'll agree that Contemporary Color Graphics can be the printer for you too.

One of our representatives will call you within the next two weeks to answer your specific questions. Or, dial us yourself anytime. We'd be delighted to help you plan your next printing project.

Sincerely,

200-F Executive Drive
