

## Delight in Baker for Your Corner of the World

True rocking chair connoisseurs have long known the value of a chair made by Baker.

That's because Baker rockers are assembled by hand in the time-honored tradition.

Take this maple rocker. With its classic lines, comfortably positioned armrests and angled back, it's the most inviting seat

in the house. No wonder guests race for it!

You won't see it, but all the braces in this chair are screwed into place one piece at a time for extra reinforcement...not merely glued together.

The rear spindles support your lower back for greater comfort and give you that "hugged" feeling.

It's this attention to detail that

distinguishes Baker rockers from other, less meticulously crafted chairs.

When you purchase Baker, you own a small piece of tradition as much as a great rocking chair.

Baker rockers start at \$120 and can be asked for with pride at fine furniture and department stores everywhere.
