

Last Chance!

Dear Subscriber:

"Renew in advance? Are you crazy, Roger?!"

Well, yes, a little (you can't be in the newsletter business without being a little strange) ... but not when it comes to you and your money.

So here's the deal:

Renew your subscription now at our lowest price yet and I'll add on Two Free Issues of UTILITY FORECASTER and my privately printed guide to "Recession-Proof Blue Chip Investments: 8 Non-Utility Income Stocks To Own Now."

Why you? Why this? Why now?

Because I like to reward loyal subscribers like you. Because I made a promise to continue to find new ways to make and save you money. Because I'm so excited about the money-making potential of these income stocks.

All in all, I hope you'll agree it's a sweet deal ...

(1) You'll lock in UTILITY FORECASTER at an embarrassingly low price.

(2) You'll get 2 Free Issues for every year you renew. That's 14 issues on a one-year renewal or 28 issues on two years.

(3) You're guaranteed continuous, uninterrupted service. Won't miss a future issue.

(4) You'll get "Recession-Proof Blue Chip Investments" ... the best dividend-paying non-utilities for safe, steady growth. My favorite choices ... carefully hand-picked by my proprietary rating system ... to make you real money in bull or bear markets. Valued at \$40 (almost half the cost of your one-year renewal). Available nowhere else.

And lastly, another good reason to renew now:

over please

(5) By eliminating the paper and production costs of future renewal notices, you'll do something good for the environment.

Renewing takes about 1 minute: Just call toll-free 1-800-832-2330 or detach and mail the form below in the reply envelope.

To renew online and to print out your special report immediately, go to www.utilityforecaster.com/renew.

Well, I did my part. The decision rests with you now.

May I hear from you today, please? Thanks.

Cordially,

Roger S. Conrad

Roger Conrad

Editor

UTILITY FORECASTER

P.S. I hate to belabor the obvious, but this is your one and only chance to seal up these values. Advance means just that. It won't be repeated.
